### All Natural -Deodorant

You have found the best natural deodorant in the world! Its scent certainly tells the story. Crisp, clean and natural. Grapefruit seed extract gently destroys bacteria – the real cause of odor. What a great alternative to the chemical-ridden deodorants we see on the big-store shelves. Does it work? Absolutely. Try a few sprays under your arms and on your feet to stop odor dead in its tracks!

This all natural spray can be used on body and on washable clothing.

Mother Nature's survival kit in a bottle!

Also works fabulously for these alternative uses: deodorizing shoe's, getting rid of Athlete's Foot, deodorizing trash cans and diaper pails.
